Global Asset Managers

We, at neo capital, are managing assets of high conviction. Our track record has allowed us to expand our base of assets and manage such assets with high efficiency.

Our partners enjoy what we call "The Peace of Mind", where thorough asset management of our portfolio reduces administrative and technical hurdles for our partners.

We are proud of our global relationships and portfolio, and dedicate all our efforts in order to create and manage high-quality investments, represented and situated across the tier-one cities in the U.S. and Europe.

## Professionals in Managing Unique Global Assets:

We manage assets efficiently in order to allow for our partners to focus on reaping superior returns

**Comprehensiveness:** Our asset management solutions and services are integrated and are highly efficient. We are responsible for managing all technical and administrative details in a cost-effective manner.

Our asset management efforts are focused on maintaining excellent condition of our portfolio in order to be compliant with future ESG Standards, thereby extending the life span of each asset. This is achieved through our commitment to maintain each asset in the finest details on a regular basis.

**Committing to the Highest Standards:** We observe and apply the highest industry standards while managing the assets. neo capital upholds a high sense of responsibility through service and delivery for our partners.

**Innovation Adoption:** Innovation is a basic element within neo capital's framework while providing our services.

Our innovation provides unique solutions and services, which are able to acclimatize with any changes that may occur in the global investment market. This helps us to manage the assets in a more flexible and efficient manner. Our innovation makes neo capital one of the most prestigious names in asset management.

We offer comprehensive solutions for real estate investments globally.

Our solutions include creating and managing unique investment opportunities in the U.S. and Europe, in order to provide our partners with superior returns.

Through experience and efficiency we successfully manage our assets, resulting in us being and continuing to be, trusted by our partners.
